

Ulysse Tassidis

French Senior/Lead Software Engineer | Backend & Microservices Specialist (.NET/C#)

utassidis@gmail.com · [+33 6 63 23 46 62](tel:+33663234662) · github.com/ulyssetsd · linkedin.com/in/ulysssetassidis

Software Engineer working in Paris with expertise in full-stack development using C#, .NET, and Angular. Strong background in leading development teams, building scalable microservices, and delivering high-quality software solutions.

EXPERIENCE

Lead Dev C# / Angular · *WEDA (VIDAL Group)* · Issy-les-Moulineaux, France May 2025 – Present

Led the Medical team (4-5 developers) on secure healthcare messaging (MSSanté v2) within WEDA's EHR used by ~15,000 physicians. Joined during production instability and restored structure, delivery capacity, and reliability.

- Crisis stabilization: Took over post-critical release with 40k+ Sentry errors, led root-cause analysis, hotfix strategy, and progressive quality improvements
- Migration & delivery: Piloted MSSanté v1 → v2 migration (API LPS, data migration, SQL linked-server removal) and delivered secretary delegation feature across incremental releases
- Technical evolution: Contributed to gradual modernization from legacy .NET Framework to .NET 8 APIs while maintaining backward compatibility and system stability
- Team & process: Established engineering standards (poker planning, INVEST stories, 2-reviewer PR policy, pre-grooming with POs) and provided technical mentorship through regular 1-to-1s and pair programming. Led recruitment process for new developers (job description, technical interviews)
- Release ownership: Managed production releases, coordinated with Ops/DBA, monitored via Sentry/Graylog/Dynatrace
- Strategic contribution: Led Ségur v2 macro-estimation (465 MD) and CDA compliance work with domain experts
- Technologies: .NET Framework/.NET 8, Angular, SQL Server, Azure DevOps, Docker, Kubernetes, RabbitMQ, Redis, Sentry, Graylog, Dynatrace, Grafana/Prometheus

Lead Dev C# / Angular · *Bouygues Telecom* · Paris, France Nov 2022 – Apr 2025

Led a team of five developers to build full-stack applications within a microservices architecture, focusing on network performance and large-scale data challenges. Aggregated data from France's 2G, 3G, 4G, and 5G networks to calculate KPIs and provide visualizations and alerting tools.

- Applied software craftsmanship principles (clean code, TDD) to ensure high-quality delivery
- Collaborated with product owners and stakeholders to define requirements and deliver features
- Technologies: .NET 6/8, Dapper, SQL Server, Angular 15, GitLab, Kubernetes, Grafana (Loki)

Lead Dev Mobile C# · *TEKenable Ltd (formerly Greenfinch Technology)* · Dublin, Ireland; Paris, France (from October 2020) Apr 2020 – Jun 2022

Led mobile app development projects using Xamarin.Forms for iOS, Android and Windows platforms.

- Managed App Store / Azure Cloud deployments, Azure DevOps (CI/CD), code reviews and onboarding processes
- Participated in solution design and business analysis with clients/end users to define use cases, architecture, deployment strategy, and estimations

JAVA/C# Software Developer · *Greenfinch Technology* · Dublin, Ireland Jul 2019 – Mar 2020

Developed web and mobile applications using C# and Java technologies.

- Developed applications using C# (.NET Core, Xamarin), Angular, Java (Spring, Hibernate) and MySQL
- Used GitHub, Jira and Azure DevOps CI/CD tools for version control, issue tracking and continuous integration/delivery

C# Software Developer · *IMEC Technologies* · Dublin, Ireland Mar 2019 – Jul 2019

Built cross-platform mobile applications and web applications.

- Built cross-platform mobile applications using Xamarin and web applications using ASP.NET

- Set up CI/CD pipelines in Azure DevOps and used MVVM patterns to unit test UI components

English Teacher (Volunteer) · *Lyli Association* · Siem Reap, Cambodia Sep 2018 – Oct 2018
 Taught English and fundraising in a school built by the association.

- Taught English to children from 8 to 16 years old
- Raised funds for the school and students

JAVA Developer → Business Analyst → Project Manager (Apprenticeship) · *BNP Paribas* · Oct 2015 – Aug 2018
 Paris, France

3-year dual apprenticeship within BNP Paribas, progressing through three roles across IT development, business analysis, and project management.

- **FIRST YEAR** — JAVA Full Stack Developer: Built web applications using Spring MVC, Hibernate, Thymeleaf. Applied Agile Scrum with CI tools (GIT, Jenkins, Maven, Nexus). User story evaluation, use case design, test automation, bug fixing and maintenance
- **SECOND YEAR** — Business Analyst, Operational Risks IS Redesign: Created, updated, and challenged the backlog, user stories, and MVP. Planned and facilitated users' workshops. Defined business processes and mockups
- **THIRD YEAR** — Project Manager Assistant: Steering, monitoring, and coordination of a web application project. Estimated budget, risks, and planning

PHP/MySQL Developer Intern · *Multimedia Automatique Diffusion* · Paris, France Jun 2015 – Aug 2015
 Participated in analysis, specification writing, and application development.

- Participated in analysis and drafting of needs
- Wrote technical specification details
- Designed and developed applications using Symfony Framework

Child Support · *Temps Jeunes Association* · Paris, France Jul 2014 – Aug 2014
 Organized departure and return of children from vacations.

- Organized departure and return of children from vacations

EDUCATION

Engineer's Degree in Computer Science and Application · *ESIEE PARIS* 2015 – 2018
 3 years in a Dual apprenticeship system. Specialization in 3D Engineering with a lot of C# development with .Net and Unity framework.

Master Program Exchange in Software Engineering · *Beijing Jiaotong University (BJTU)* · Beijing, China 2017 – 2018
 A student exchange where I studied Chinese Mandarin and software engineering.

Technical Degree in Computer Science · *University Institute of Technology MLV* 2013 – 2015

SKILLS

C#	.NET Core · .NET 6 · .NET 8 · .NET 10 · Xamarin · Unity · ASP.NET
JavaScript	Angular · React · Node.js · TypeScript
Java	Spring Boot · Spring MVC · Hibernate · Android
Python	Flask
SQL	SQL Server · PostgreSQL · MySQL · MongoDB
DevOps & Tools	Docker · Kubernetes · Azure DevOps · GitLab · GitHub · Azure Cloud · CI/CD
Observability	Sentry · Graylog · Dynatrace · Grafana · Prometheus · Loki
Architectural Patterns	Microservices · MVVM · Domain-Driven Design · TDD · Clean Code · Craftsmanship

Agile & Leadership Scrum · Team Leadership · Code Reviews · Pair Programming · Mentoring
AI Agents GitHub Copilot · Claude · Gemini

LANGUAGES

French Native speaker
English Highly proficient (C1)
Certification TOEIC® with a score of 905. Lived and worked in Ireland for 2 years.
Chinese Mandarin Basic

INTERESTS

Music

Musician from 2014 to 2018. Managed music band and organized performances for 4 years. Released two albums with more than thirty lives across France and England.

Running & Climbing

Travel & Asian Culture

Passionate about Asian culture and travel. Traveled and organized trips across 8 Asian countries.

PROJECTS

Twitter like in Python / Flask framework [↗](#) Sep 2017 – Jan 2018
A Twitter-like website made with Flask (python framework), PostgreSQL, and Bootstrap. Organized with AGILE method and GIT. Made during year at BJTU with highest note.

Microsoft HoloLens Project / Unity C# [↗](#) Sep 2016 – Jun 2017
Augmented Reality gaming project conducted within ESIEE Paris for Artefact Event. Combines QR code detection, voice recognition, environmental control (room scan), and Unity.

Website - Empty House Feb 2016 – Mar 2016
Full-stack website project from conception to deployment, including design and development.

Android Wi-Fi Mapping Application Nov 2014 – May 2015
Research project to model and map Wi-Fi signals received with Android smartphones to identify white areas in coverage.
